PROFESSIONAL SUMMARY

Final-year **Computer Science** student at Air University with hands-on experience in **full-stack development** across web, mobile, and desktop platforms. Skilled in **React, React Native, Node.js, MongoDB, and Firebase**, with a focus on building secure, scalable, and user-centered software. Seeking an internship or entry-level role to contribute and grow professionally.

EDUCATION

Bachelor of Science in Computer Sciences | Air University, Islamabad | Final Semester

WORK EXPERIENCE

Full Stack Developer Intern | **Care Cloud – MTBC** | 05/2025 – 08/2025

- Contributed to healthcare web applications using modern full-stack technologies.
- Built **responsive UI components**, optimized performance, and ensured cross-browser compatibility.

Frontend Developer Intern | **Khuda Hafiz – AUBIC**

- Contributed to the **frontend interface** of a startup platform that digitizes and manages funeral services.
- Developed UI components ensuring an accessible, intuitive, and respectful user experience.

PROJECTS

SecureXPro -FYP | *React, Electron.js, Node.js, Python*

- Desktop vulnerability assessment tool for web and network scanning, exploit identification, **risk scoring**, and report generation.
- **Role-based access** for admins and agents with secure **JWT authentication**.

Cogo-Shield | *React, Node.js, Express.js, MongoDB, Firebase* | [Live Demo ↗](#)

- **Personal safety app** with guardian registration, emergency notifications, evidence recording, and escalation chain.
- Secure JWT authentication for user and guardian accounts.

Swiftt | *React Native, Node.js, MongoDB, Firebase, Socket.IO*

- Full-stack ride-booking app with separate User and Driver apps, real-time location tracking, and push notifications.
- JWT authentication for both user types across mobile platforms.

GlowCare | *MongoDB, Express.js, React.js, Node.js*

- Skincare e-commerce platform with product browsing, ordering, and a doctor admin panel for personalized recommendations.
- Secure **REST APIs** for product management, orders, and user data.

Expense Tracker | *MongoDB, Express.js, React.js, Node.js* | [Live Demo ↗](#)

- Full-stack MERN application for daily expense management with an intuitive dashboard and financial analytics.

VixCommerce | *React, Node.js, MongoDB* | [Live ↗](#)

- End-to-end Amazon management platform providing sustainable growth solutions with expert team collaboration and comprehensive analytics.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, C++, Java, Python, HTML, CSS, SQL

Technologies: React.js, React Native, Next.js, Node.js, Express.js, MongoDB, Firebase, Electron.js, Tailwind CSS, Socket.IO

Tools: Git/GitHub, Postman, MS Office, Canva

VOLUNTEER WORK

Developing Youth Aspirations | 2018 – 2021

- Delivered soft-skill sessions impacting 2,200+ underserved students across Lahore, Islamabad, and Wah Cantt.
- Facilitated 5M+ PKR in scholarships and supported 350+ families with ration distribution during COVID-19.

Women in Computing Club, AUCIS | 2023 – 2024

- Organized empowerment events and tech coding bootcamps focused on women-led innovation in computing.

CERTIFICATIONS & COURSEWORK

Coursera: Meta Front-End Developer Specialization, Relational Database

Udemy: React – The Complete Guide, Next.js Bootcamp

Apna College: Delta Web Development Bootcamp
